

Client: Town of Brookline
Designer: Alya Shklovskaya
Brookline, MA
Completion: May, 1998

Traffic circles, triangles and median strips are small in size but large in impact. The Town of Brookline was eager to improve these overlooked public spaces and turned to COG for design help.

COG matched this exciting opportunity with a student seeking a thesis project. The year-long study resulted in planting designs of elegance and ingenuity as well as realistic maintenance plans.
